Introduction to Christian Ethics

The ability to judge good from bad, right from wrong, is a uniquely human characteristic. However, given the complexity of life, it is often difficult to discern which choice to make, where our responsibilities lie, or what the consequences of an action (or of a nonaction) will be. In *The Moral Disciple* Kent Van Til surveys the skills and dispositions that we need to address moral issues responsibly. This basic introduction to Christian ethics — the systematic evaluation of morality — highlights the centrality of Christ and the Christian faith in moral formation, and it offers an ethical framework to guide Christians as they engage a host of moral dilemmas, including those surrounding wealth, sexuality, and the end of life. Using easy-to-read prose and defining terms carefully, Van Til provides an accessible introduction to this crucial and practical subject.

Readings in Christian Ethics

A philosophical and theological treatise on what Christian ethics should be. Going throughout Christian history and the world of God, Wuttke determines what defines right and wrong within the context of the world he lives. Although Wuttke lived in a different time, the truths he based his ethics off of are timeless and makes the relevancy of these words go into all time.

An Introduction to Christian Ethics (2-downloads)

Talking about ethics tends to involve talking about what we should or, more often, shouldn't do. We talk about setting limits on actions that, for whatever reason, we think are either wrong or somehow harmful to ourselves or others. The aim of this book, however, is to explore Christian ethics within a wider, more positive framework – one that views Christianity's moral resources as part of the good news that it proclaims to all creation. Ethics, says Hovey, need not be characterized primarily by negative prohibitions, limits, and tiresome hand-wringing. Rather, it's about a joyful and worshipful way of living, which flows naturally out of the abundant goodness God's life and character, as revealed in Jesus. Christian Ethics: Two Volumes in One

Kieran Cronin helps philosophers and theologians to understand each other's perspectives on rights, making this book a significant contribution to Christian ethics and moral philosophy.

Exploring Christian Ethics

This book is about decision making. Its underlying theme is that we cannot move directly from basic Christian Insights to key areas where ethical choices have to be made without some kind of empirical investigation, with all the hazards which that brings. And the more detailed the analysis and recommendations drawn from the investigation, the greater the difference of opinion will be. This makes it important to work on particular topics in groups, looking for agreement at a middle level on a general direction: this is important where the situation is polarized, as it often is. The studies collected here relate to three areas: ecumenical Christianity, economics and politics. The subjects discussed include the development of social ethics in the Church of England, the future of Protestant ethics, the end of the Protestant work ethic, the New Right, political theology, liberation theology, penal theory and practice and the demoralization of modern society.

Rights and Christian Ethics

Introducing Christian Ethics helps Christians form a sound basis for making ethical decisions in today's complex postmodern world. Raising 14 key ethical questions on today's most pressing issues including abortion, war, sexual ethics, capital punishment, and more, Scott Rae guides his readers in making moral choices wisely. Based on the best-selling college and seminary ethics textbook *Moral Choices*, this book distills nearly two decades of teaching and study into a succinct and user-friendly volume. It is an ideal primer for pastors, students, and everyday Christians who desire engagement with the world around them in an intelligent and informed manner. Teaching and study resources for the book, including additional video clips based on the questions corresponding to each chapter, make it ideal for use in the classroom as well as for pastors and for teaching settings within the church. The Future of Christian Ethics

James M. Gustafson has been a leading and formative figure in the field of Christian ethics over the past fifty years. His many contributions to theological ethics have helped to define and shape ethical thinking by Christians who reflect on great moral issues. Gustafson's work must be dealt with by all students in this discipline, and his perceptive insights have given clarity and guidance to the process of moral discernment. The essays collected here are ones that have had a significant impact on discussions and debates over recent decades. The Library of Theological Ethics series focuses on what it means to think theologically and ethically. It presents a selection of important and otherwise unavailable texts in easily accessible form. Volumes in this series will enable sustained dialogue with predecessors through reflection on classic works in the field.

Introducing Christian Ethics

The field of Christian ethics is the subject of frequent conversation as Christians seek to understand how to

live faithfully within a pluralistic society. The range of ethical systems and moral philosophies available can be confusing to people seeking clarity about what the different theories mean for everyday life. This Spectrum Multiview volume presents a dialogue between four main approaches to ethics in the Christian tradition. Virtue ethics focuses less on the action itself and more on the virtuous character of the moral agent. A divine command approach looks instead at whether an action has been commanded by God, in which case it is morally right. Natural law ethics argues for a universal, objective morality grounded in nature. Finally, prophetic ethics judges what is morally right in light of a biblical understanding of divine justice and shalom. The four views and their proponents are as follows: Brad J. Kallenberg: Virtue Ethics John Hare: Divine Command Ethics Claire Peterson: Natural Law Ethics Peter Heltzel: Prophetic Ethics Christian Ethics: Four Views, edited by noted ethicist Steve Wilkens, presents an accessible introduction to the key positions in Christian ethics today. Spectrum Multiview Books offer a range of viewpoints on contested topics within Christianity, giving contributors the opportunity to present their position and also respond to others in this dynamic publishing format.

Moral Discernment in the Christian Life

How should we understand the relationship between Christian ethics and religious ethics? Among comparative, ethnographic, and normative methodologies? Between confessional and non-confessional orientations, or between theology and philosophy? This volume brings together emerging religious ethicists to engage the normative dimensions of Christian ethics. Focusing on scripture, tradition, and reason, the contributors to this volume argue for a vision of Christian ethics as religious ethics. Toward this end, they engage with scripture, interpretation, and religious practice; examine the putative divide between reason and tradition, autonomy and heteronomy; and offer proposals about the normative characterization of conceptual and practical issues in contemporary religious ethics. Collectively, the volume engages Christian thought to make an argument for the continuing relevance of normative methodologies in contemporary religious and theological ethics.

An Introduction to Christian Ethics

This recent edition of Christian Ethics Volume I is a thoroughly revised and updated version of fundamental moral theology. As in the previous editions, the author makes himself an interpreter of the demands of Vatican Council II and its request that moral theology be rooted more fully in Holy Scripture. At the same time account is taken of the new developments in the field of ethics. New issues of actual concern are taken up, such as the deontological and teleological conditions of moral norms, the confrontation between conscience and civil or ecclesiastical law, the communal roots of Christian identity, the requirement of liberty and the ethical compromise. The book addresses itself to all who are interested in the moral teaching of the Christian faith and endeavors to be a helpful instrument to this end.

Choosing the Good

This book is a wide-ranging introduction to Christian ethics that assumes no prior knowledge of the subject. It introduces a range of approaches to Christian moral reasoning and discusses numerous practical ethical issues. Throughout the book, ethical theory and practical ethics are integrated with one another, in order to show how each informs the other. Topics often neglected in Christian ethics are dealt with here, including Christian ethics and science and Christian ethics and pastoral care. Case studies and exercises give readers the opportunity to formulate their own responses to the moral issues discussed in the book, and to reflect on the sources of their own moral deliberation and action. Chapter bibliographies list print and web resources offering more detailed coverage of the topics introduced in the book.

Christian Ethics

Volume One of Traditional Christian Ethics describes the terminology, discusses popular approaches to ethical decision-making today, illustrates that the earliest Christians conducted themselves in accordance with a large number of specific moral rules, states the method of this set of books for reconstructing the content of early Christian ethics/law as attested before the devastating epidemic and mass apostasy of AD 249-251, gives reasons for regarding this as the terminal date, and provides a guide to using the lists. At a number of points, this volume deals with objections to its theses. Volume One also furnishes you with complete information as to where you can find and look up the ancient sources cited in translation. Traditional Christian Ethics will help you solve problems in moral decision-making when Scripture is unclear or silent. You can solve them through its comprehensive itemized concordances of citations to precepts of Christian ethics from all translated ancient texts. Its sources possess unassailable authority that cannot be fabricated, and are persuasive among most Christian denominations. Preachers and professional scholars will find them invaluable as a starting point in preparing their own sermons, books, articles, and essays on specific points of ethics.

Christian Ethics

"This treatise on Christian ethics is one of the most thoughtful and comprehensive presentations of the subject we have had in many years. It should be of inestimable value not only to the general reader but also to students and classes in our colleges and seminaries".--Reinhold Niebuhr. Part of Westminster's Library of Theological Ethics series.

Traditional Christian Ethics

Continuing the unbroken conversation on ethics that has endured across the Christian generations, David Oki Ahearn and Peter R. Gathje present *Doing Right and Being Good*. For Ahearn and Gathje, ethics is the critical reflection on morality, focusing on our beliefs, our practices, our held values. In addition to the book's wide-reaching selected readings, Ahearn and Gathje offer introductions to each chapter which provide extensive overviews and establish contexts for moral issues over which sincere Christians differ. The authors examine two broad understandings of ethics: that of doing right (understanding the difference between right

and wrong) and being good (specific personal traits). Acknowledging a shared history between Protestant and Roman Catholic traditions, this book takes both historical and ecumenical approaches to ethics. Engaging, and informational, *Doing Right and Being Good* aims at providing constructive reflection and dialogue to all readers, regardless of background. Chapters are: "The Moral Person," "Sources of Christian Ethics," "Interpretations of Love and Justice," "Marriage, Family, and Sexuality," "Political Life and the Problem of Violence," "Stewardship: Work, Property, and the Environment," "Christian Love at the Margins of Life." David Oki Ahearn, PhD, an ordained member of the United Methodist Clergy, serves as associate professor of religion and philosophy, as well as chair of the division of humanities and social sciences at LaGrange College in LaGrange, Georgia. Peter Gathje, PhD, is associate professor of religion at Christian Brothers University, in Memphis. He also serves as chair for the department of religion and philosophy, director of De Lasalle Center for Teaching and Religion, and director of the peace studies program.

Christian Ethics

The T&T Clark Handbook of Christian Ethics provides an ecumenical introduction to Christian ethics, its sources, methods, and applications. With contributions by theological ethicists known for their excellence in scholarship and teaching, the essays in this volume offer fresh purchase on, and an agenda for, the discipline of Christian ethics in the 21st century. The essays are organized in three sections, following an introduction that presents the four-font approach and elucidates why it is critically employed through these subsequent sections. The first section explores the sources of Christian ethics, including each of the four fonts: scripture, tradition, experience, and reason. The second section examines fundamental or basic elements of Christian ethics and covers different methods, approaches, and voices in doing Christian ethics, such as natural law, virtue ethics, conscience, responsibility, narrative, worship, and engagement with other religions. The third section addresses current moral issues in politics, medicine, economics, ecology, criminal justice and other related spheres from the perspective of Christian ethics, including war, genetics, neuroethics, end-of-life decisions, marriage, family, work, sexuality, nonhuman animals, migration, aging, policing, incarceration, capital punishment, and more.

Basic Christian Ethics

In these two volumes, Kenneth Cauthen thoroughly examines what he terms "the ethics of belief." Simply stated, Cauthen posits that ethics are a matter of the convictions that individuals and communities have about what is right and wrong, good and evil. He contrasts this with a more traditional view that morality is based upon principles that are universally valid and objectively true. Using a biological and historical approach, in Volume 1 Cauthen systematically develops a theory of Christian ethics based on what love (agape) and justice mean in contemporary society. He examines the interface between our complex civilization and some of the radical demands of the New Testament. Cauthen's ultimate goal is for readers to ask themselves, "How would Christ have us live in the 21st century?" In Volume 2, Cauthen spells out the implications of this ethical theory for a wide variety of contemporary topics. He takes forthright and controversial positions on a number of social and personal issues, including abortion, illegal drugs, prostitution, assisted suicide, capital punishment, church and state relations, religion and politics, democracy, poverty, health care, wealth and income distribution, affirmative action, and homosexuality. *The Ethics Of Belief* is a thought-provoking work that delves deeply into some of our world's most timely yet timeless issues. A nationally recognized authority on theology and ethics, Kenneth Cauthen is the John Price Crozer Griffith Emeritus Professor of Theology at Colgate-Rochester Divinity School/Crozer Theological Seminary. He is the author of several seminal works that have become standard texts, such as *The Impact of American Religious Liberalism*, which was selected for a special White House library on American history and culture. His CSS publications include the groundbreaking volumes *The Many Faces Of Evil* and *The Ethics Of Assisted Death*. Cauthen received his education from Mercer University (B.A.), Yale Divinity School (B.Div.), Emory University (M.A.), and Vanderbilt University (Ph.D.).

Doing Right and Being Good

This book addresses such key ethical issues as euthanasia, the environment, biotechnology, abortion, the family, sexual ethics, and the distribution of health care resources. Michael Banner argues that the task of Christian ethics is to understand the world and humankind in the light of the credal affirmations of the Christian faith, and to explicate this understanding in its significance for human action through a critical engagement with the concerns, claims and problems of other ethics. He illustrates both the distinctiveness of Christian convictions in relation to the above issues and also the critical dialogue with practices based on other convictions which this sense of distinctiveness motivates but does not prevent. The book's importance lies in its attempt to show the crucial difference which Christian belief makes to an understanding of these issues, whilst at the same time demonstrating some of the weaknesses and confusions of certain popular approaches to them.
